

## Our Proven Value

- DEPLOY A WORKING PRODUCT MORE OFTEN**  
Get your product to market faster
- CHANGE DIRECTION RAPIDLY**  
By breaking work into smaller increments, producing fully functioning code, you can change direction in as little as 2-3 weeks
- VALIDATE ASSUMPTIONS**  
Get your product into the hands of actual users and measure their interaction with it to validate assumptions as you build
- IMPROVE TEAM COMMUNICATION**  
Teams are given frequent opportunities to improve through daily stand-ups and retrospectives
- EMPOWER TALENTED EMPLOYEES**  
Allow your team members to engage more directly on projects and solutioning

With our help, compared to waterfall, Agile delivers value while decreasing overall risk right out of the gate

## AustinCSI Advantage

Agile is more than just a project management methodology. We take a holistic view into Agile delivery

## Success Stories

Agile is more than just a project management methodology. We take a holistic view into Agile delivery

**Problem:** Our client was struggling with project quality and speed issues.

➤ **Solution:** Our Agile consultants implemented Agile solutions such as Test Driven Development (TDD) to allow for more collaboration between the development and testing teams. This increased quality as well as customer satisfaction.

**Problem:** Our client experienced an increase in workload and simultaneous decrease in productivity.

➤ **Solution:** We were able to have more frequent release and deliver more projects with less overall spend.
