MAPPING THE FUTURE

Preparing For the Next Chapter: Is Your Business Process Evolving?

Situation

- Need to retire legacy mainframe system
- Desire for improved employee payroll experience
- Aiming to reduce risk and improve process efficiency
- Reimagining new future processes outside of system constraints

Approach

- Map out future processes utilizing industry expertise & experience
- Define & prioritize capabilities required to modernize legacy systems and retire the mainframe
- Resource mapping to better understand Subject Matter Expert (SME) capabilities & utilization
